

DID YOU KNOW THAT...?

...BIG CAPITALISTS SUPPORTED
COMMUNISM...

Pablo J. DAVOLI, Esq. (*)

* According to some researchers (among them, Paul H. KOCH, author of *“Illuminati. The Secret History of a Malevolent Sect”*), the banker Nathan M. ROTHSCHILD (founder of the English branch of the aforementioned family clan) financed a group of people who called themselves the *“League of the Just”*. Subsequently, this group would economically reward **KARL MARX** for the writing of his controversial bibliography.

* According to other authors, the eldest of Nathan’s son, Lionel N. DE ROTHSCHILD (director of *“N. M. Rothschild & Sons”* and first member of Jewish origin in the House of Commons of the British Parliament), directly subsidized **KARL MARX** while he was writing his book. Curiously, the author of the *“Communist Manifesto”* was great-great-grandson of Lionel N. DE ROTHSCHILD’S two great-grandparents: The brother of his maternal grandfather, Solomon D. BARENT-COHEN, was MARX’s great-grandfather.

* In accordance with the previous remarks, the denunciation according to which “*Marxists had a shoe in the Socialist movement and another in the bank*”, is attributed to Mijail BAKUNIN.

Baron Lionel N. DE ROTHSCHILD and Karl Heinrich MARX.

* The **BOLSHEVIK REVOLUTION**, which took place in Russia in 1917, was “generously” financed by:

- Well-known capitalist magnates, like Jacob SCHIFF (he gave 20,000,000 USD, according to his grandson John SCHIFF, in statements to the “*New York Journal American*”, in February 1949), Solomon GUGGENHEIM, J.P. MORGAN, Armand HAMMER (employer of Albert GORE, father), Sir George BUCHANAN and Lord Alfred MILNER (he would take part in the ominous Treaty of Versailles, he was the founder of the secret society “*The Round Table*”, and he would have contributed with more than 21,000,000 roubles to the revolutionary cause).

- Big Anglo-American business trusts, like the corporate group “*Standard Oil*”, controlled by the ROCKEFELLER family clan. And...

- Powerful “Occidental” banks, like the “*Kuhn, Loeb & Co.*” Bank (managed by the aforesaid SCHIFF and composed of, among

others, Paul and Felix WARBURG), the “*Nye Banken*” (managed by Olaf ASHBERG) and the “*Lazard, Frères & Co.*” Bank.

The banker Jacob SCHIFF and the Bolshevik leader Vladimir LENIN.

* Thanks to the negotiations made by the banker Max WARBURG (Paul and Felix’s brother) and Israel Lazarevich GELFAND (better known as Alexander HELPHAND or PARVUS, arms dealer and financier of the Armenian genocide), the German government (behind the “*Kaiser’s*” back) collaborated with the Bolshevik leader Vladimir Illich ULIANOV (better known as LENIN) so he could secretly return to Russia, in a bulletproof train, with 10,000,000 USD in gold, provided by the Treasury of the “*Reich*”.

Max WARBURG and Alexander PARVUS.

* For his part, the revolutionary Lev Davidovich BRONSTEIN (better known as Leon TROTSKY) was supported by Edward M. HOUSE, advisor of President Woodrow WILSON, connected to the International Banking. Thanks to him and Sir William WISEMAN (“*Kuhn, Loeb & Co.*” partner), TROTSKY –arrested in Canada along with other revolutionaries, carrying 20,000,000 USD in gold– was released with an American passport. Thus, he could continue his trip to Russia where he would meet with LENIN.

The “Colonel” Edward M. HOUSE and the revolutionary Leon TROTSKY.

* Paul WARBURG (“*Kuhn & Loeb*” Bank partner) was, as well, one of the “designers” and founders of the US Federal Reserve System (that is a kind of “*sui generis*” central bank, whose structure is –at a great extent– “privatized” and its running –at first– independent of the President and the Congress). The “*Federal Reserve*” pressured the American government to give the Bolshevik regime an official recognition, publicly opening the trade with the new state. Nevertheless, these pressures were initially frustrated by the rejection that the Bolsheviks’ atrocities caused in the American public opinion.

Paul Moritz WARBURG (1868 - 1932), in May 1915, in Washington (USA), on the First Pan American Financial Conference.

* Paul WARBURG was also a member of the influential “*Council on Foreign Relations*” (CFR). This private organization, founded in 1921, had –and it still has– an extraordinary influence on the American government’s activity –mainly, in the American Foreign Policy. Herbert HOOVER was member of the same organization and –at the beginning of the 1920's– he organized a collection of funds to buy food that was sent to Russia as help.

* The “*New Economic Policy*”, established by LENIN in 1920, received an important financial support from Frank VANDERLIP, agent of the ROCKEFELLER’s clan and president of the “*First National City Bank*”. In the meantime, another agent of the previously mentioned family clan, the publicist Ivy LEE, was developing a propaganda campaign aimed at presenting the Bolsheviks as “misunderstood idealists” in front of the American public opinion.

* According to what General Arsène DE GOULEVITCH tells in his book “*Czarism and Revolution*”, between 1918 and 1922, the **BOLSHEVIK GOVERNMENT** paid off a debt of 100,000,000 USD to “*Kuhn, Loeb & Co.*”

* The **BOLSHEVIK GOVERNMENT** established in Russia allowed certain multinational “corporate groups” to exploit oil reservoirs in the vast Soviet territory. Thus, the company “*Standard Oil*” took charge of the management of half of the oilfields in the Caucasus. It is worth remembering –as Walter GRAZIANO did in “*Nadie Vio Matrix*” (“*Nobody Saw Matrix*”)– that the overthrown Czarist regime had categorically opposed to the interference of multinational companies related to this field in Russian oil resources.

* Likewise, in 1927, the ROCKEFELLER clan helped the **BOLCHEVIK GOVERNMENT** to build an oil refinery, agreeing next to the distribution of the Soviet oil in the European markets, with a loan of 75,000,000 USD in between. This amount was lent by the “*Chase National Bank*” (a bank controlled by the ROCKEFELLERS, which would join the “*Manhattan Bank*” of the WARBURGS, giving rise to the known “*Chase Manhattan Bank*”, recently merged with “*J. P. Morgan & Co.*”, giving birth to the actual “*J. P. Morgan Chase & Co.*”).

* The “*Chase National Bank*” would also promote the establishment of the Russian-American Chamber, whose president Reeve SCHLEY was also vice-president of the aforementioned bank.

* From 1928, the “*Chase National Bank*” (bank controlled by the ROCKEFELLER clan) was involved in the sale of Soviet bonds in the American market. This operation was executed through the Federal Reserve Board, according to what was denounced by the president of the United States House Committee on Banking, Louis MAC FADDEN.

* Immediately after, many big capitalist companies began to invest in the Union of Socialist Soviet Republics: “*General Electric*”, “*Sinclair Gulf*”, “*Guggenheim Exploration*”, etc. According to Averell HARRIMAN (banker and US ambassador in the U.S.S.R.), STALIN himself (whose real name was Iósif V. DZHUGASHVILI) would recognize –as early as 1944– that almost 2/3 of the huge Soviet industry had been set up thanks to the American technical support. The help was also military. This began in 1917, continuing for decades. Without the large amount of military supplies provided by the USA, the U.S.S.R. would have never resisted the German military onslaught during World War II.

* The central bank set up by the **BOLSHEVIK GOVERNMENT** itself was managed by a representative of the “*Nye Banken*” aforementioned. In

this way, the Soviet monetary policy was under the control of ASHBERG, his partners and his allies.

* The political consolidation of the **BOLCHEVIK REGIME** included, between 1917 and 1922, the **killing** of more than **one and a half million people**: Members of the Russian nobility, Army and Navy officers, Christian priests, teachers... But most of them, country persons and workers!

* In 1925, the U.S.S.R. government officially announced that, since the 1917 revolution, the amount of **executed** reached **almost 2 million people**, of which the 75% were country persons, workers and soldiers.

* When STALIN died, in 1953, the total amount of victims of the **COMMUNIST REGIME** exceeded the **35 million deaths**. According to some sources, the previously mentioned **genocide** reached **55 million!** Mr. KOCH said so in his aforementioned book.

* The infamous **“Holodomor”** (or **“Golodomor”**), which was the *“holocaust”* of the Ukrainian people, merits a separate mention. Such **genocide**, caused by the artificial famine deliberately provoked by STALIN’s government, entailed **between 7 and 10 million deaths**. It occurred between 1932 and 1933.

* Unfortunately, the killings did not cease after the death of the Georgian tyrant (STALIN). According to the assertion made by the Great Russian dissident Alexander SOLZHENITSYN (Nobel Prize in Literature in 1970) in *“Warning to the West”*, the victims of the *“Socialist experiment”* in Russia equaled **66 million people**. Thanks to the disappearance of the U.S.S.R. in 1991, the atrocities ascribed to the **COMMUNIST REGIME**, since its beginning, could be better confirmed. In this regard, we recommend reading the book *“Le Livre Noir du Comunismo”*, published by Stéphane COURTOIS.

* For those who want to go into detail about their knowledge on the subject, we recommend consulting the books “*ut supra*” mentioned and also, reading the following: “*Wall Street and the Bolshevik Revolution*” by Anthony SUTTON (available in Spanish at www.laeditorialvirtual.com.ar) and “*None Dare Call It Conspiracy*” by Gary ALLEN and Larry ABRAHAM.

An eloquent cartoon from 1911, by Robert MINOR, American Socialist cartoonist.

We can see MARX being appreciated in Wall Street, New York (the financial “heart” of the USA). He carries his works under his left arm while he waves George PERKINS, J. P. MORGAN’s partner, with his right hand.
